Description

The new Peter Sagan Trail is the perfect addition to the existing Alban Lakata Trail. Both trails together add up to an impressive length of around 7.1 kilometres, making it a challenge for any experienced biker. Flow and lots of airtime describe the new trail excellently, and not to forget the stunning and priceless panorama. Where else can you ride your bike over a perfectly shaped 7 kilometres long trail directly into the city!? 55 steep turns, 18 rollers, numerous gaps, step ups, and a mega-panorama boner jump make every biker's heart beat faster and motivated to repeat the ride.
