Laserz via ferrata route

Altitude profile

Laserz via ferrata route

The most important at a glance

difficulty	length	duration	exposition	sea level starting point
C/D	620 m	2:30 h	NW	1620 m

sea level highest point	access time to the entry point	walking time descent
2561 m	1:30 h	2:30 h

state: closed

best season: JUN, JUL, AUG, SEP, OCT

access:
Starting point: Lienz, Tristach, Dolomitenhütte Ascent: Starting point at the Dolomitenhütte car park – on the standard route to Karlsbaderhütte until the "Marcher Stein" and from there in a north-easterly direction to the "Rudl Eller Weg" (blue signposts) – follow this until you come to a large cairn – straight after this, bear right on a steep grassy slope to the information board at the base of the wall. Alternative ascent: From Dolomitenhütte via the "Rudl Eller Weg" - via Weißsteinalm to the Hohe Törl (short rocky sections with secured points, max. A/B, - brief descent past the entrance to the Bügeleisenkante (note: risk of rock fall) – right after this, bear left and take the path up to the information board.

descent:
In a north-easterly direction to the not-difficult rocky ridge to the Laserzwand saddle – on the signposted standard route to Karlsbader Hütte, continuing to the Dolomitenhütte.

Description

Lovely, challenging via ferrata route through the west face of the Kleine Laserzwand. At 620 m in length, enormously steep and with prolonged difficult sections, it presents a real challenge for tenacious and fit via ferrata users.

The entire route is secured throughout with a thick steel cable (set up in 2006).

Upholer: AlpinPlattForm Lienz
